

Climate Changes – Action Plan

- To elaborate a GHG emissions inventory report based on the whole Bradesco organization;
- To submit the GHG emissions inventory to external audit;
- To develop actions aimed at reducing GHG emissions;
- To neutralize GHG emissions in 2007 in the whole organization and identify new neutralization forms (VERs);
- To encourage suppliers and clients to engage in the reduction and/or neutralization of the GHG emission;
- To contract a company to carry out a study on the impacts of the climate changes in Brazil;
- To inform stakeholders on troubles concerning global warming and climate changes;
- To analyze critically the Credit Policy (and review it, if necessary) based on the study carried out by the specialized company;
- To divulge the periodic bulletin elaborated by the Bank's Chief Economist (Research and Economic Studies Department), which brings issues related to the climate change;
- To stimulate the sale of products focused on climate change: savings bond, credit card, financings (several lines);
- To develop trainings aimed at employees of the business area and divisions related to climate change issues;
- To formalize and divulge the Carbon Credit product;
- To analyze the feasibility of using Carbon Credit to guarantee financial operations (anticipated purchase of Carbon Credit);
- To analyze the feasibility of creating a Carbon Fund;
- To analyze the risk (exposure) of the loan and financing portfolio due to climate changes.
