## About Natixis

Natixis is a French corporate and investment bank created in 2006 from the merger of the asset management and investment banking operations of Natixis Banque Populaire (Banque Populaire group) and IXIS (Caisse d'Epargne group). Natixis is the wholesale banking, investment management and financial services arm of Groupe BPCE, the cooperative bank born out of the merger between Banques Populaires and Caisses d'Epargne. Natixis is affiliated to the group's central body, i.e. BPCE, which directly holds 70.64% of its capital. As such, Natixis benefits from the group's financial solidarity system.

## Equator Principles

---

### Implementation and reporting

The Equator Principles require that adopting banks publicly report on the implementation of the principles. You can find the reporting requirements for EPFIs [here](#).

Natixis is reporting on the implementation [here](#).

### Contact and complaints

The Equator Principles currently lack a formal complaints mechanism. Should you have any concerns or complaints about how the Equator Principles are being applied in a specific project in which Natixis is also involved, please get in touch with our [Equator Principles team](#).

## Good moves

### 2015

#### Climate breakthrough as string of banks dump coal financing

In May, Bank of America and Cr dit Agricole became the first major banks to announce plans to stop financing coal mining. These announcements marked a hugely significant win and a breakthrough moment in the fight to end financing for the coal industry. The second half of 2015, in the run-up to the...
