Paris Pledge

In recognition of the grave threat to the world's climate posed by ongoing mining and use of coal, as well as the urgent need to transition towards a low/no carbon economy, we hereby confirm:

- that we are not involved in the financing of coal mining or coal power through any of our lending activities, our share and bond underwriting, or through our advisory services;
- that we minimize to the largest extent possible any residual financing of mining and use of coal in the context of our asset management;
- that we actively support the financing of renewable energy and energy efficiency.

To underline our accountability to this pledge, we commit to publish on an annual basis all our lending activities, including any lending to the renewable energy sector.

Signed on behalf of,

Alternative Bank Switzerland Ltd.

Martin Rohner
CEO
