Pledge 2025
BBVA strategy on climate change and sustainable development

To finance
We will help to create the scale of capital mobilization to halt global climate change & attain the UN Sustainable Development Goals

- €100 Billion MOBILIZED
  - Green finance
  - Sustainable infrastructure and agribusiness
  - Financial inclusion & entrepreneurship

To manage
We will manage our environmental & social risks to minimize potential negative direct & indirect impacts

- 70% RENEWABLE ENERGY
- 68% DIRECT GHG EMISSIONS REDUCTION
  - Transparency in carbon-related exposure
  - Alignment with 2°C scenario
  - Sector norms in mining, energy, agribusiness & infrastructure

To engage
We will engage with all our stakeholders to collectively promote the contribution of financial industry to sustainable development

- ACTIVE COLLABORATION
  - TCFD recommendations implementation on 2020
  - Financial education
  - Promotion of Responsible Banking standards within the industry

Our purpose: to bring the age of opportunity to everyone
A €100 Billion mobilization between 2018 and 2025

**Transition to a low carbon economy**
- Green lending to companies & institutions
- Green bonds intermediated as bookrunner
- Energy efficiency, water & waste management & solutions for SMEs & individuals
- Green investment funds & equity

**Financial inclusion & entrepreneurship**
- Lending to underserved
- Lending to vulnerable microentrepreneurs
- Lending to women entrepreneurs
- New digital business
- Impact investment

**Infrastructures & agribusiness**
- Project & corporate lending in education, health & affordable housing
- Social bonds intermediated as bookrunner
- Social investment funds & equity
- Agribusiness lending under sustainability criteria
Current exposure on sustainable finance

Credit exposure
December 2017

\[ \text{\euro\ 22.132 million} \]

- Financial inclusion & entrepreneurship: 13%
- Infrastructures & agribusiness lending: 19%
- Other green lending: 7%
- Green project finance: 15%
- Green corporate lending: 42%
- Green certified loans: 4%

Sustainable bonds
2017

- Sustainable bonds intermediated: \text{\euro\ 10.646 million}
- As bookrunner: \text{\euro\ 1.517 million}

---

(1) Including BBVA Microfinance Foundation
(2) Green criteria aligned with Green Bond Principles. Social criteria aligned with Social Bond Principles
BBVA SDGs Bonds Framework

Background

- There is a growing market on green & social bonds (USD131bn issued in 2017, USD180bn forecast for 2018)
- Financial institutions are starting to play a relevant role as issuers
- Main advantages for BBVA: increase and diversify its investors’ base and a clear positive impact on reputation
- BBVA has a strong positioning on green bonds and green loan. There is an opportunity to be perceived as first mover

Our solution

BBVA’s SDGs Bond Framework follows the ICMA’s Green Bond Principles (GBP), Social Bond Principles (SBP) and Sustainable Bond Guidelines which have four requirements:

- Use of Proceeds
- Process for Project Evaluation and Selection
- Management of Proceeds
- Reporting

(1) International Capital Market Association (ICMA)
### Environmental direct impacts targets 2025

<table>

Conclusions

Environmental & social issues are gaining relevance in our business, not only as emerging risks but also as business opportunities.

Sustainable Development Goals (SDGs) & fight against climate change are global challenges that commit States, companies and the whole civic society.

Pledge 2025, our strategy on climate change and sustainable development.
A strategy based in our purpose and three fundamental pillars:

To finance
- €100 Billion mobilized for sustainable finance 2018-2025
- Green finance, sustainable infrastructure, agribusiness, financial inclusion & entrepreneurship

To manage
- 70% renewable energy & 68% reduction in direct emissions
- First global bank to report carbon-related assets
- New sector norms in mining, energy, infrastructure & agribusiness

To engage
- Active collaboration with all stakeholders and commitment with main global initiatives promoting sustainable finance
- TCFD recommendations implemented in 2020
- Education & financial education
"We are first generation to be able to end poverty, and the last generation that can take steps to avoid the worst impacts of climate change."

Ban Ki Moon
ANNEXES

Sector norms: main exclusions
Sector norms: main exclusions

**Mining**
- New coal mines and coal mine expansions.
- New projects on Mountaintop Removal (MTR) extraction methods.
- Asbestos extraction projects.
- Major coal producers using MTR mining in more than 10% of their activity.
- Clients with a significant portion of their activity consisting in the extraction of coal (more than 40%) used to generate electricity that lack a diversification strategy.

**Energy**
- New nuclear power plants.
- Construction of new and expansion of existing coal power plants.
- Exploration and production of oil and gas in the Arctic.
- Tar sand exploration and production.
- Simple hull oil tankers.
- Significant coal-based power generation (more than 40%) without a diversification strategy.

Exceptions may be made for new nuclear power plants, construction of new and expansion of existing coal power plants, and coal-based power generating clients, in countries with high energy dependency and without viable alternatives. BBVA will report on such projects/clients financed.
Sector norms: main exclusions

Agribusiness

- Illegal logging
- The burning of natural ecosystems to clear land for the development of agricultural projects
- Projects for production of first-generation biofuel
- Use of substances prohibited by the Stockholm Convention
- Non-certified Palm oil operations or not in the process of obtaining certification by the Roundtable on Sustainable Palm Oil (RSPO)
- Clients engaging in blast and cyanide fishing
- Clients using driftnets in excess of 2.5km
- Clients trading and manufacturing angora wool
- Clients with animal testing not related to health research
- Clients with direct participation in the trade of shark fins, commercial whale hunting, illegal, undeclared and unregulated fishing

Infrastructure

- Dams failing to comply with WCD Framework
- Facilities failing to comply with the Hong Kong Ship Recycling Convention
- Clients that cannot furnish the health and safety records of their workers and/or areas of influence
- Clients that cannot disclose or provide information about their performance in connection with the use of water, waste and greenhouse gas emissions
Pledge 2025
Our Strategy on Climate Change and Sustainable Development

Madrid, February 2018
