

The **Bradesco Organization's Sustainability Corporate Policy** aims to ensure the longevity of its operations and business with social, environmental and climate responsibility through the following guidelines:

1. To adopt social, environmental and climate responsibility criteria in business and operations, considering the process of development, review and commercialization of products and services.
2. To ensure ethical and transparent conduct in all the Organization's activities, building trust in our relationship with stakeholders.
3. To ensure that the adopted corporate governance practices demonstrate the pursuit of the solidity and longevity of our business in order to create value for our shareholders and other stakeholders.
4. To encourage the adoption of business practices in alignment with the environmental protection, improving the use of natural resources and considering the risks and opportunities arising from significant environmental aspects, including climate change.
5. To ensure the existence of a formal integrated process for managing the social, environmental and climate risks to which the Organization is exposed in its business and operations.
6. To encourage awareness and engagement of employees, clients, suppliers and other stakeholders to adopt sustainable practices.
7. To enable the development of human capital respecting diversity, in alignment with the Organization's strategy and business.
8. To ensure respect for the laws, standards and regulations that rule social, environmental and climate management, as well as the integration of this Policy with the others in the Organization.

We declare that this is a faithful copy of the Bradesco Organization's Corporate Sustainability Policy, approved at the Extraordinary Meeting of the Social and Environmental Responsibility Executive Committee, held on September 23, 2005, whose last review, without changes, was approved by the Executive Officer in charge on May 14, 2026.
