Subject: Do the Paris Pledge to end finance for coal

Dear Mr. Frijns,

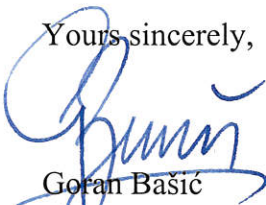

Thank you very much for inviting us to do the Paris Pledge. Since our bank is a 'coal free' bank we hereby follow your invitation by sending you our pledge.

We confirm that we are not involved in the financing of coal mining or coal power. This covers all our banking activities and services, including lending, share and bond underwriting, asset management and advisory services.

In recognition of the grave threat to the world's climate posed by ongoing mining and use of coal, as well as the urgent need to transition towards a low/no carbon economy, we pledge that we will continue to avoid financing coal mining and coal power, and will support the financing of renewable energy and energy efficiency.

We would like to point out that our bank does only operate within Germany. Since we do not want to attract customers outside of Germany we ask you for publishing a respective remark when you list us on your campaign website.

Yours sincerely,

Goran Bašić

CEO UmweltBank AG
